## PROJECT

### MAGAZINE DISTRIBUTION MANAGEMENT

We developed web-application on "Magazine Distribution Management" for a particular agency who has sub-agencies using the WAMP server and Dreamweaver as a designing tool.

It helps the agency to manage a distribution of magazines and easy to place the orders for the sub-agencies from anywhere and at any time.

This application provides the details of different kind of magazines and their rates. Sub-agencies can easily see their previous ordered details. This application helps the agency to maintain overall distribution of magazines.
